

COBBLERS

THE CRAFT LIVES ON: **COBBLERS AROUND THE WORLD**

To some, the word cobbler brings to mind memories of a bygone era. But around the world, skilled and passionate craftspeople are keeping the occupation, and untold numbers of shoes and boots, alive and well. In a world where many products are made hastily and disposed of nearly as quickly, cobblers push back, working fastidiously to extend the usable life of footwear. For companies like Red Wing that manufacture products that are meant to be repairable to last for decades, there's nothing out-of-date about cobblers.

Red Wing Shoe Stores and dedicated Red Wing Dealers in Europe can provide you with information on Red Wing approved cobblers in your region who can repair and re-sole your boots using original Red Wing parts. By entrusting your boots to Red Wing approved cobblers, you can ensure that your boots are repaired with high-quality materials and craftsmanship, which can help extend the life of your boots for many years to come.

The list below directs you to the European Red Wing approved cobbler stations. You can contact or visit them for your re-sole and repair questions.
